Skills and Practice

- HTML & CSS 📌
 - ✔ Adaptive screen to mobile [*media queries*]
 - ✔ CSS animation
 - ✔ Materialize
 - ✔ Bootstrap
 - ✔ Tailwind...
- JavaScript 📌
 - ✔ Registration Form, modal windows
 - ✔ Arrays & nested loops, touch events
 - ✔ Local storage, tabs, events handling
 - ✔ API, AJAX and Promise.all, axios
 - ✔ UI library [*React*]
 - ✔ Framework [*VUE*]
- PHP 📌
 - ✔ Laravel, Laratrust
 - ✔ Cookie & session - Login
 - ✔ Code Sniffer, RedBeanPHP
 - ✔ Swift Mailer, reCAPTCHA v3
 - ✔ WYSIWYG CKEditor 4
 - ✔ Intervention Image
 - ✔ L5-Swagger, BelongsToThrough

Courses

- 2017
 - ✔ Quality Assurance Core
 - ✔ Quality Assurance Junior
- 2019
 - ✔ HTML & CSS
 - ✔ JavaScript
 - ✔ Node.js
 - ✔ React.js
 - ✔ PHP
- 2020
 - ✔ React.js
 - ✔ PHP - Laravel
- 2022
 - ✔ 1C/BAS 8.3

Experience

2021-2023 Big Data, work with reports in 1C/BAS & API service web application, PHP & JS:

- Made API-service for integration two accounts systems of enterprise.
- Writing technical tasks for 1C programmers - creating typical reports and auto creating typical documents.
- Setting up the main and additional (interim) of production reporting - 1C/BAS and Web-Pages in live-time using Highcharts.
- Analytical activities: the plan/fact of the use of resources and productivity.

2020-2021: Bootstrap & JS - educational materials and knowledge testing.

2019-2020 Website of Engineering Service of Agroholding:

- native PHP, insert tables from Excel; jQuery - two sliders;
- native JS - tabs, hide animation and big pictures, show/hide tables and pictures of articles;
- CSS - animation, optimization for screen resolution & mobile [*Android and iOS*].

2013-2017 Big Data, work with SQL & MS Access databases:

- collection and processings data from different channel [*mail, Excel and accounting*];
- made daily reports of 40 enterprises of different indicators using joining tables and data filters;
- current control and analysis of deviations, forecast of production indicators, modeling of budgets.

Portfolio

Laravel - Library:

- Inertia, Tailwind CSS, Intervention Image, BelongsToThrough, Laratrust, L5-Swagger, Socialite, "Feature" tests.
- MultiRangeSlider.vue, Multiselect Checkboxed, Vue 3 Multiselect, QuillEditor, Vue-chart-3.
- Global Filter and Sort by: year, likes, writer, title, category, genre, tags and type.
- Local Sort by: id, title, year, likes, category, genre, type and author, pagination - set books on page.
- Registration - with email verification, roles - Admin, Moderator and Reader.
- Slider - with touch events, seeders - USERS, BOOKS, USER_LIKES, WRITERS, TAGS, GENRES & CATEGORIES.

Vue - Meal generator: [*API*] TheMealDB; Pinia; search meal by name, single random meal; full meal details by id; list all meal categories, area & ingredients, filter by main ingredient, category or area.

React - Summary: Redux, Reselect, Lazy&Suspense API, Axios, Promise: async/await Bootstrap, Module-CSS, Carousel, Preloader Leaflet-Maps, HERE-maps & Google-Maps, SQL & PHP.

React - Big Data: agricultural:

- Summary corporation data. Google Charts with range-select and tables with filters.
- Up to 6 tables in one query - 5 JOINS. COUNT, AVG, SUM, GROUP BY, ORDER BY.
- Editing data in a browser - selecting or writing a comment in a cell; data is immediately stored on the server.
- Media query: show / hide minor columns at low resolution.
- Updating databases on the server - using the upload of csv files.
- Create/Edit of a report template on the machinery and equipment of the corporation.
- Modal window and event touch in Carousel.

React - Maps: three options: switch Leaflet Map, HERE Map or Google Map, getting by device the geographic coordinates.

React - Weather forecast: [*Two API*] openweathermap by geographic coordinates, used [*Promise.all*] - current day & 5 day weather forecast.

React - To-do list: language switching, adding, editing and deleting users, clients and tasks.

Laravel - Inertia: 🦋 Library

TEST TASK - LIBRARY
CRUD | REST API | Email Verification | Socialite | Laratrust | L5-Swagger | QuillEditor | Intervention Image | "Feature" tests

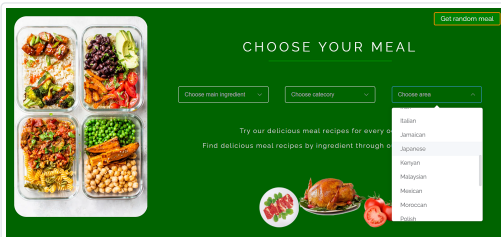

NPM package
MultiRangeSlider.vue,
Vue 3 Multiselect,
QuillEditor

Simple editing
editing in table row,
creating data in row,
no page for edit/create

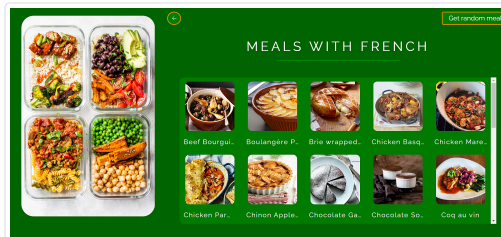

Additional Information

- hard worker, responsible and punctual
- without bad habits
- resistant to stress
- English - B1
- PhD, associate professor

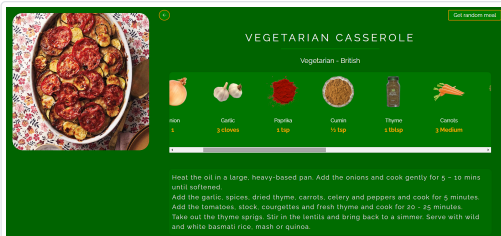

Vue: Meal

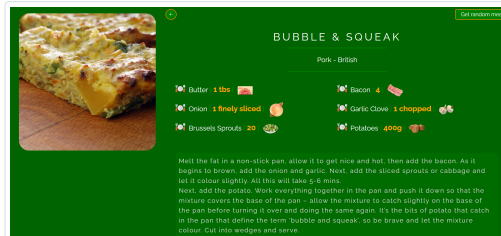

Sort by - Ingredient, Category or Area

List of recipes

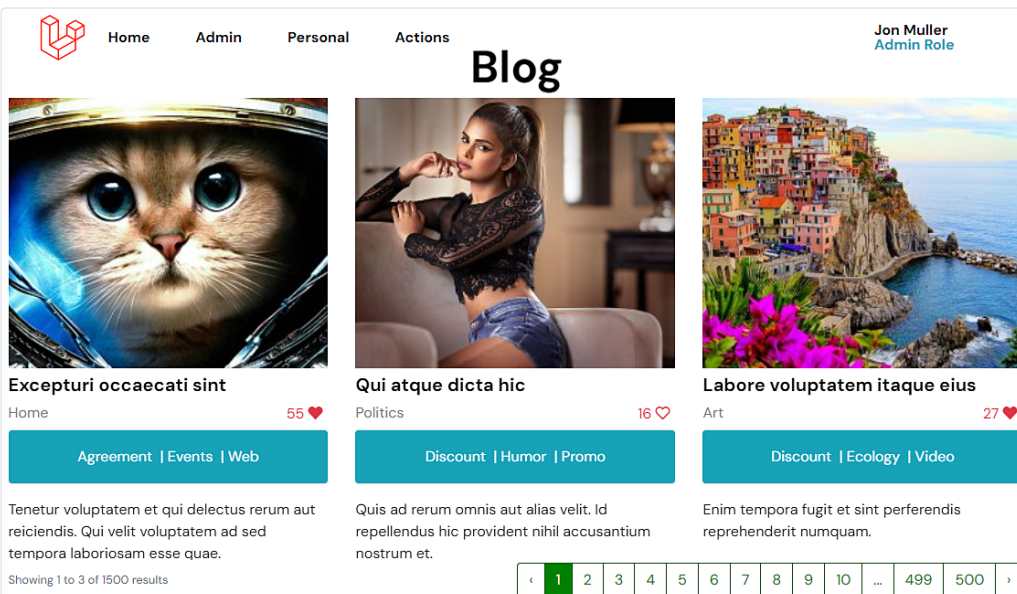

Random recipe

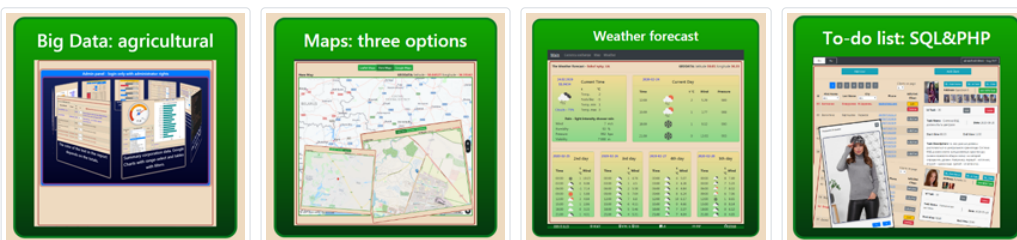

Recipe by ID

Blog: Laravel, AdminLTE

Posts: CRUD, invoke, like, random posts, tag & category, AdminLTE

React: Big Data, Maps, Weather, To-do list

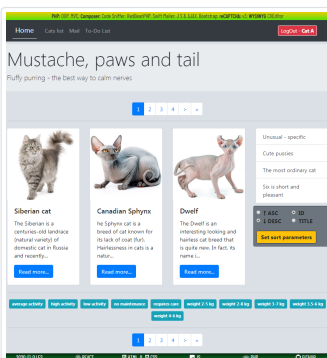

Big Data: agricultural

Map of your district

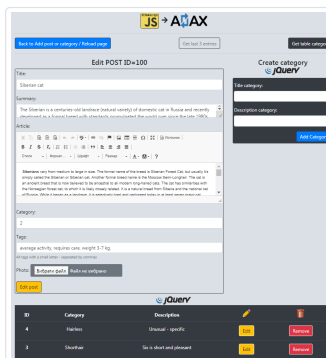

Weather

To-do list

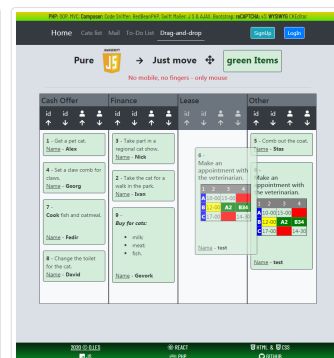

PHP - MVC: Traine

SQL: Pagination, Tag, Category - Sort

Add, edit articles & categories - AJAX

Drag-and-drop - sort by ID or by Name
